

# CREATION SABBATH

Watch the movie *A Matter Of Faith* with your small group, and then discuss the following questions:

- 1- What do you think of Stephen Whitaker's reaction to finding out that Rachel was being influenced by her biology lecturer, Professor Marcus Kaman?**
- 2- Are there any other ways that Rachel and her dad Stephen could have built up a relationship with Professor Kaman in order to lead him to Jesus?**
- 3- What's your evaluation of the debate between Professor Kaman and Stephen Whitaker?**
- 4- What reasons would you give to believing that God's exists and that the Biblical account of Creation is historically true?**
- 5- How do you think your local church can support young people, who are learning about evolution at high school or university, to be better prepared for evolutionary ideas that challenge the Biblical account of Creation?**
